

Invitrogen a part of Life Technologies™

We would like to invite you to technology and product presentation

Jason Kilgore - Technical Support Scientist II (Molecular Probes)

Fluorescence Immunolabeling Tips and Tricks -

A general overview of using fluorescence immunolabeling and other detection strategies. Particular emphasis will be on reagent choice and workflow optimization.

Nick J Dolman Ph.D. - R&D Scientist (Molecular Probes)

Fluorescence Imaging in Cell Biology -

Introduction to fluorescence imaging in cell biology with the aim to broaden the awareness of applications that can be done and endpoints that can be measured, using fluorescence technology. Presents an overview of fluorescent dyes and applications beyond typical immunofluorescence.

Local Host's

Frank Harris: Invitrogen account manager

Tom McManus: Invitrogen Technical Sales Specialist

Date: Tuesday June 23rd, 2009

Time: 11:30 am – 3:00 pm

Presentation from 12-1 with Q&A afterwards

Place: Delaware Biotechnology Institute (DBI) Core Imaging Auditorium
15 Innovation Way, Newark, DE 19711 Room 102

Lunch Will Be Served

Please RSVP by Tuesday, June 19th, 2009
