

Seminars, Fall 2005

All seminars are held in CCM 106, 10:30-11:30am.

9/14

Cancelled

9/28

Lisa Porter

CMU

Silicon Carbide for a New Era of Electronics: Interfacial Issues

10/12

Dr. Steven Robey

NIST

Electronic structure and effects of chemical modification in prototypical "molecular wire" systems

10/26

Dr. Peter Carcia

DUPONT

Oxide Semiconductors for Flexible Electronics

11/9

Shu Yang

UPENN

Synthesis and Self-Assembly of Thermo-Responsive Block Copolymers

12/7

Jonathan Coddington

SMITHSONIAN

Evolution of Spinneret, Spigot and Web Architectures in Spiders
