

Plant Science Seminars, Fall 2005

Friday at 1:25, 132 Townsend Hall

September 9th, Dr. Jun Kwak, University of Maryland

"From genomics to cellular dynamics: Genetic Dissection of ABA and Ca²⁺ Signaling in *Arabidopsis* Guard Cells"

October 7th, Dr. Alice Harmon, University of Florida

"Calcium-Dependent Protein Kinases in *Arabidopsis*"

October 14th, Dr. Pablo Rabinowicz, TIGR, The Institute for Genomic Research

"Methylation Filtration: Genes, Transposons and Beyond"

November 4th, Professor Chris Hawes, Oxford Brookes University

"Live Cell Imaging of the Plant Secretory Pathway"

December 2nd, Ag Program Leader Ed Kee, Cooperative Extension and **Farmer John Hastings**, Laurel, Delaware

"Adopting technology on the Farm: When Does it Pay?"

Please contact Kathleen Turner (ktturner@udel.edu) to arrange a meeting or meal with the speakers.
